Además, el trabajador no se encuentra sujeto ni a desplazamientos ni a horarios que puedan interferir en su jornada laboral.

La flexibilidad de la formación on-line permite a los profesionales mantener sus conocimientos actualizados de forma cómoda y eficaz. Esto ha hecho que el pasado año más de un millar de alumnos hayan realizado sus cursos con campusMVP.

Microsoft e-learning

Desde septiembre de 2008 hemos incorporado a nuestro catálogo **toda la oferta de e-learning de Microsoft**. Gestionamos estos cursos oficiales en inglés directamente a través de nuestra propia plataforma de teleformación, SELF, en idénticas condiciones que los elaborados por nosotros mismos. Somos la **única empresa española** que cuenta con esta capacidad actualmente.

Estos cursos, cuyos **contenidos son desarrollados por Microsoft** y cuentan con la exclusiva ventaja de proceder **directamente de la fuente** fabricante de la propia tecnología, ofrecen una serie de características que los dotan de un gran valor añadido, como por ejemplo:

- Cursos prácticos extremadamente especializados y **directos al grano**, sin contenido superfluo.
- Contenidos **sin necesidad de conexión**. Los contenidos pueden ser descargados al disco duro y trabajar con ellos si no existe conexión. Una vez conectado, la actividad queda sincronizada nuevamente
- **Laboratorios virtuales**. El alumno podrá practicar en equipos reales sin necesidad de instalar nada. Ahorran tiempo y anulan posibles daños a los equipos del alumno. Se convierten en la forma más rápida de poner en práctica lo aprendido.
